

Dear Harbour Pointe Owners,

Welcome to the ENCO family. We are thrilled to be a part of Harbour Pointe. ENCO's enterprise grade Wi-Fi network that is backed by an ultra-fast bulk fiber optic internet connection will be available soon at Harbour Pointe. Below are a few details about this new property-wide Wi-Fi system.

Your Own Private Network

The ENCO property-wide Wi-Fi system provides each condo with a private internet connection that is not shared with anyone else in the building. To receive your secure login information please go to: **www.encoelectronics.com/harbourpointe**

Worry Free Guest Network

The Guest Network, is available property-wide and is available to Owners who do not want to give their guest access to their private network. Although the Guest Network has the same password for all users, it is a secure network and devices connected to it do not share data with one another.

Wireless Network: **harbourpointe-guest.encowifi**

Password: **45451933**

More than Wi-Fi

To give you a great Wi-Fi network we are upgrading Harbour Pointe with the following improvements which are a significant investment in Harbour Pointe's infrastructure. These improvements will continue to serve and add value to Harbour Pointe for many years to come.

- Property-wide gigabit internet network
- Enterprise grade Ruckus Access Points
- Pool and Gym Wi-Fi Access

Internet You Will Love Backed by the Service You Deserve

ENCO provides free onsite set up assistance. We can set up any internet-connected device currently in your condo, even if you are not there. If you would like to take advantage of this service, please email support@encowifi.com.

We look forward to serving Harbour Pointe.
-The ENCO Family
